

A Critical Neumann Problem with Anisotropic p -Laplacian

Gustavo Ferron Madeira

We discuss the existence of a positive solution of a critical Neumann problem involving the anisotropic p -Laplacian. The solution obtained is a bounded $C^{1,\alpha}(\Omega)$ function which is strictly positive within the domain.

This is a joint work with Olimpio Miyagaki (UFSCar) and Alânnio Nóbrega (UFCG), and has been partially supported by the São Paulo Research Foundation (FAPESP), Grant No. 2022/16407-1.
